

Stainless wet&dry vacuum cleaner with filter cleaning and big capacity

Being compact, versatile and robust, the AERO 31 INOX wet and dry vacuum cleaner can easily be transported to any location, e.g. by car. After finishing your job, the container can be nicely and easily emptied - either by disposing the standard fleece filter bag or tipping the container. The Push&Clean filter cleaning system prevents loss of performance and increases productivity during the cleaning task. An innovative storage solution makes it easy to place suction hose, nozzles and power cord in several positions and the built-in 2-points tube parking makes operation easy and flexible.

AERO 31 INOX with stainless steel container is compact and easy to use - the ideal choice for cleaning jobs in workshops or at customer sites. It is a robust and versatile machine for workers within industry, automotive and building & construction featuring semi-automatic filter cleaning and high mobility.

- Washable PET fleece filter with minimum 99,9% filtration efficiency
- MultiFit accessory system for ultimate flexibility
- Convenient accessory and cable storage and tool deposit
- Exhaust air blow function
- Stainless steel container
- Flexible rubber strap for hose storage

AERO 31 INOX is the big capacity model of the AERO 21/26/31 series with high focus on application and end-user needs. Push&Clean filter cleaning system and exhaust air blow function is standard together with flexible and convenient accessory storage. The 30 liter machine has efficient suction performance and a durable stainless steel container with robust trolley. Power socket with AutoOn/Off activates the machine by the connected drilling, sanding or cutting tool. The AERO 31 INOX offers great help keeping both air and surroundings clean and reducing the overall sound level.
