A NEW LEVEL OF PRODUCTIVITY FOR COMPACT WET/DRY VACUUMS

Whether you work with wet or dry debris, in open areas or hard-to-reach locations, cleaning in workshops or on job sites, AERO Wet/Dry vacuums will do the job with no hassle.

With its compact size, increased suction power, PET filter and filter cleaning system, the AERO series is taking cleaning performance and productivity to a higher level. Nilfisk-ALTO AERO 21/26/31 is a series of more effective, compact and reliable wet and dry vacuum cleaners offering new benefits for professional end-users—at a very competitive price.

AERO 21 & AERO 21 INOX: The smallest models in the AERO series with compact design and easy to use features—the ideal choice for smaller cleaning jobs in workshops or at customer sites. The 20 liter machine has efficient suction performance and has an optional INOX stainless steel container with robust trolley and lifting handle.

AERO 26 & AERO 31 INOX: The featured models, designed specifically for your application needs. They are lightweight and robust machines for professional workers featuring ergonomic design, semi-automatic filter cleaning and convenient storage solutions.

- Lightweight container in 3 different sizes: 20, 25 or 30 liter
- Built-in storage for hose, power cord and accessories
- Simple and reliable design for easy maneuverability
- Push&Clean semi-automatic filter cleaning system, for quicker and easier maintenance
- Long-lasting washable PET filter with an efficiency of minimum 99.9%
- Powerful motor unit with 127 CFM and 84 inches of waterlift
- Exhaust air blow function

Push&Clean semi-automatic cleaning system, for quicker and easier maintenance.

Long-lasting, washable PET filter retains to 1.0 micron.

Fleece bags available for easy clean-up of debris.

INOX models come standard with stainless steel collection container.

Accessory storage and tool deposit makes transport and storage easy and reliable.

Integrated container handle makes disposal and lifting easy and convenient on AERO 21 and 26 models.
